Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Specification formal matters:

On page 1 of the specification the section entitled CROSS REFERENCE TO RELATED APPLICATIONS contains inconsistencies that require clarification and/or correction.

The first such inconsistency is that a preliminary amendment added a claim of priority to PCT/US98/01714 but did not define the relationship to the instant application such as C-I-P, DIV, CON, etc. This is also an inconsistency with the request for corrected filing receipt, filed 11/15/99.

The second such inconsistency is that lines 11-14 in the instant specification on page 1 indicate that several applications are continuation-in-part applications but at least one such presumed parent application has a filing date that is later than applications which seem to be indicated as child applications. For example, Application Serial Number 08/837,524 in the parentage section has a filing date of April 21, 1997 which is later than the filing date of PCT/US97/03332, filed February 20, 1997, which is in the child application section of said cross reference paragraph.

The third inconsistency is that the filing date of Application Serial Number 08/853,522 is incorrect in said paragraph. It should be January 30, 1998, and not May 8, 1997, as presently in said cross reference paragraph.

Fourthly, the status of applications which have become either abandoned or patented should be added to this paragraph.

Applicants are requested to submit an amended paragraph to replace lines 10-14 on page 1 of the specification to correct inconsistencies.

Oath or Declaration formal matters:

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

This application presents a claim for subject matter not originally claimed or embraced in the statement of the invention regarding priority documents, such as PCT/US98/01714, etc. It also cites an incorrect filing date for Application Serial Number 08/853,522. A supplemental oath or declaration is required under 37 CFR 1.67. The new oath or declaration must properly identify the application of which it is to form a part, preferably by application number and filing date in the body of the oath or declaration. See MPEP §§ 602.01 and 602.02.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
